→ A sign plan shall be included with the application and contain the following information:

- Materials to be used in manufacturing and constructing the sign.
- Sign Size, message size or field of lettering, *and* proportions.
- Lettering size or graphic style.
- Design features other than lettering such as symbols, logos, etc.
- Colors scheme.
- Lighting, if proposed.
- Location of each sign on the building(s) and/or property (include height of sign).

Sign plans shall be drawn neatly to scale to present a clear and accurate picture of the proposal. The sign plan will be reviewed for compliance with the standards on the next page.

Section 10-7 Standards:

- No rotating beam, beacon or flashing illumination that may resemble an emergency light shall be used with any sign display.
 - No blinking, rotating or moving parts or components on temporary or permanent signs.
 - Signs shall not have pennants, balloons or portable signs or wheeled trailers.
 - Signs may be lighted by shielded or directed light sources.
- It shall be the responsibility of the owner of the property and/or improvements to remove any sign or signs where the associated land use has been discontinued for more than ninety (90) days. If a one-time event, the removal of signs shall take place within seven (7) days after the event closure.
- If a preview sign has been erected for a future use it shall be a business that has received a Special Use Permit to operate and meet the provisions of the sign ordinance. If the use is permitted the preview sign must also meet the sign ordinance requirements.
- The size shall be not greater than thirty-two (32) square feet per face, for example that of 4' x 8'.
 - Cut-out or molded letters, or advertising when applied to buildings, shall be not greater than thirty-two (32) square feet field on the building.
- The design shall incorporate a well thought out, layout design with clean lines and an uncluttered appearance.
- The sign construction shall be completed in a workmanlike quality manner.
- The message may include: service, business, owner name, address, telephone number, a logo, or graphic illustration of the product(s) or service(s) offered.
- On ground mounted signs, the top of the signs shall be mounted not more than ten (10) feet off the ground.
 - If the street/road elevation is greater than the elevation of the mounting site, the street/road elevation may be used to determine the height.
 - The total height of the mounting structure shall be no greater than twelve (12) feet.
 - The intent is to keep the sign within the vision triangle of the motor vehicles. Special attention must be given to the placement of signs near intersecting roads to assure there is no obstruction of vision from any vehicle.
- No more than three (3) permanent signs may be placed at a given land use.
 - One sign is allowed on the building
 - One two-way sign or two one-way signs facing each direction are allowed in the land use area.
- For Commercial Malls or Planned Unit Developments (industrial or commercial or a combination of land use) not more than one ground mounted sign structure shall be allowed on each road or street frontage. The sign may be used as land use and occupant identification signs.
 - Projecting or a swinging sign is not allowed.
 - One sign shall be allowed to be mounted flat to the building front of each shop, store or land use.
- No sign or sign structure, for any purpose other than approved County, State and Federal signs shall be placed upon any County street or highway right-of-way.
 - At no time shall any sign be mounted or affixed to any utility pole or structure other than as may be required by the utility owner or law.
- In Gem County, in a Mixed Use Zone, signage must be applied for as part of the Special Use Permit process.
- If placed inside a window, flashing signs must be not less than three hundred (300) feet from any residentially zoned lot.
 - Distance shall refer to the lineal measurement in any direction with relation to the street that the sign faces.
- At no time shall a sign or portions of it be allowed to project above the roofline of the building on which the sign is mounted.
- Outdoor Advertising signs are prohibited in unincorporated areas of Gem County.
- Signs not regulated by this Chapter: An application for any sign or advertising display or structure for which no specific regulation appears in this Ordinance shall receive appropriate Planning and Zoning and Building Department staff review as outlined in this chapter and by the Gem County Zoning and Subdivision Ordinance, if not exempt.
- Any signs placed along State Highway 16 or Highway 52, must meet the standards of the Department of Transportation and Gem County. Call the Idaho Department of Transportation at 334-8355 for their requirements.
